Lifestyle blogger and influencer,

Lifestyle blogger and influencer, Matilde Trobeck, together with her husband, have created their own haven in a newly built home, close to the forest and lake in North Zealand, Denmark. This has become more than just a home, it's the perfect environment for exclusivity and warmth to fuse in perfect harmony.

For Matilde and Kristian, it was crucial to create the right atmosphere, especially in the heart of their home—the kitchen and dining area. It is not just a place to prepare food; it's a space where life is lived, and where togetherness and closeness thrive.

The choice of Manor Back in Antique Brown as a design element is no accident—it was carefully selected by the couple themselves and perfectly complements the fine oak fronts and solid stone countertops.

Influencer and interior enthusiast

Malin, better known as @interiorbymalin_, has taken us on an exciting interior journey in her charming home in the picturesque Väckjö, Sweden. Here she shares her love for aesthetics and minimalism, and most recently, she transformed her kitchen with beautiful wooden handles from the VONSILD Collection.

In her search for the perfect handle for her idyllic home, Malin came across the wooden handles from the VONSILD collection and was immediately captivated by Pinta in lacquered oak. This elegant choice turned out to be the ideal match for her white minimalist kitchen, where aesthetics and functionality come together seamlessly.

UNTREATED BRASS

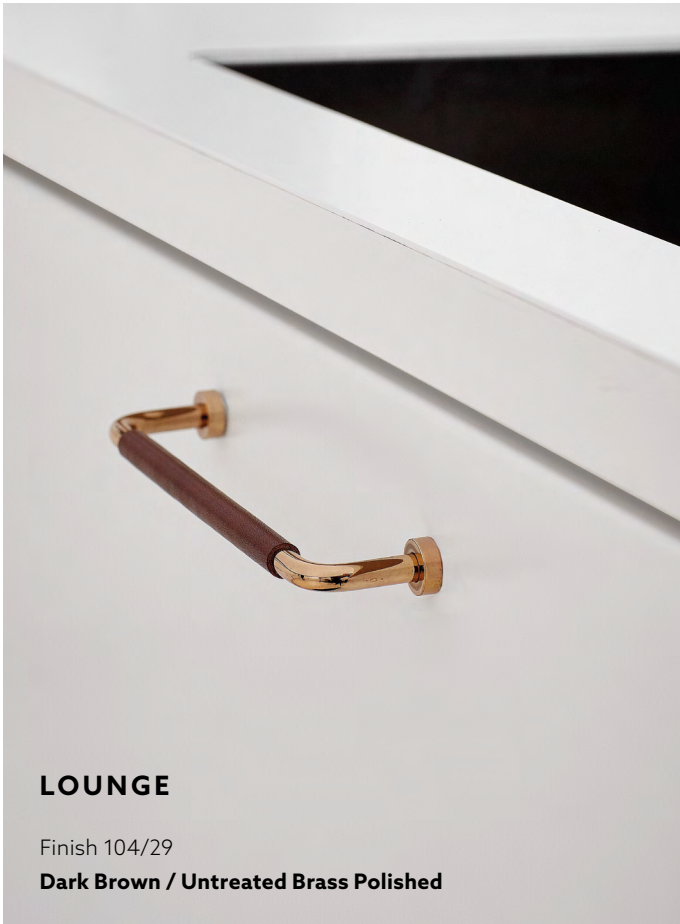

Untreated brass is alive and naturally patinas over time. Our handles and knobs in untreated brass are lead-free and add character to any room. They fit both a patinated and polished aesthetic.

By being aware of the natural properties of brass, you can enjoy the beautiful shift in the surface colour over time, but with proper care, the shiny surface can also be preserved, keeping the handles as a radiant focal point on any furniture.
